Amplifier built-in type **Z-L** series**Small spot size that can be achieved by lasers****Approx.  $\varnothing$ 2 mm spot size at a distance of 400 mm (diffuse-reflective type)**

Optimal for applications that in which small object detection and high repeat accuracy are required.

**For high-speed lines****Response time: 250  $\mu$ s**

The laser sensor provides a top class response time.

This feature makes detection in high speed production line possible.

**Outstanding environmental resistance****Degree of protection: IP67, Shock resistance: 50 G**

Its integrally molded structure enables all models to conform to IP67 and achieve a shock resistance up to 50 G. It doesn't break even when wet and can be used in locations where vibrations are generated.

**Standard specification size****25.4 mm standard pitch**

Features an industry standard pitch of 25.4 mm.

#### Notes

- When using a switching regulator for the power supply, be sure to ground the frame ground terminal.
- Avoid wiring in parallel with or in the same piping as high-voltage wires or power lines. Doing so may lead to malfunctions caused by noise. Also, shorten the power supply and signal wires as much as possible.
- Avoid using the transient state while the power is on (approx. 100 ms).
- The connector direction is fixed as in the drawing to the right when you use L-shaped connector cable. Be aware that rotation is not possible.

Notes for sensor usage

**Warning**

Do not look directly at the laser or intentionally shine the laser beam in another person's eyes. Doing so may cause damage to the eyes or health.

ZT-L3000N

■ Regarding the laser label, this product emits a Class 2 (II) visible laser beam that is compliant with JIS C6802/IEC/FDA laser safety standards. A CLASS 2/CLASS II warning label and explanation label (English) is affixed to the side of the sensor head.

\*The ZT-L3000N emitter is Class II in FDA standards (when exported to the United States), but is Class 1 according to JIS/IEC standards, so change the label that it is packaged with for use.
